# RUN ON SUN

Harness the power of solar energy and save!

Adenbrook Homes invites you to take advantage of this strictly limited FREE offer that will reduce your ongoing household running costs, reduce your carbon footprint and environmental impact and keep your family cool in summer and warm in winter. Deposit now on your dream Adenbrook Home and claim your 'Run on Sun' offer valued up to \$15,000 absolutely FREE!\* Hurry, only available to the first 100 preliminary deposits or before June 30 2020, whichever occurs first.

The 'Run on Sun' offer is brought to you in partnership with leading brands including Bradford Energy, COLORBOND® steel and Daikin and includes the following;

**1. A professionally installed roof made from COLORBOND® steel, available in a choice of 22 classic or contemporary steel colours only (not COLORBOND® steel Matt)**

**2. 4kW Bradford SolarPack Lite including;**

- One (1) 5kW Sungrow Inverter
- Fourteen (14) Canadian Solar Panels
- Sungrow Solar Monitoring
- Installation and commissioning

**3. Daikin air conditioning package consisting;**

- One (1) 6.0kW FTXS60L Back to Back Split System unit to main living area (or equivalent)
- One (1) 2.5kW FTX25L Back to Back Split System unit to main bedroom (or equivalent)

BONUS! Take advantage of the 'Run on Sun' offer and secure your opportunity to enter the draw to win a 13.5kWh Tesla Powerwall valued at \$14,599\* installed. Hurry, only the first 50 preliminary deposits are eligible to win. Save even more with the 'Run on Sun' offer + Tesla Powerwall home battery prize. Reduce your household running costs, carbon emissions and increase your household solar self sufficiency.

With a 4kW Bradford ChargePack system including Tesla Powerwall home battery you can save up-to \$32,000\*\* on your electricity bills over 10-years, reduce your carbon footprint by 5 tonnes\* annually and enjoy around 80%\*\* solar self sufficiency on an average day.

Upgrading to a 6kW Bradford ChargePack has even greater savings with up to \$38,000\*\* saved over 10-years on your electricity bills, 8 tonnes\*\* of carbon emission savings on average annually, and around 90%\*\* household solar self sufficiency on an average day.

\*\*Assumptions: Solar savings based on a 4kW or 6kW Solar System + Tesla Powerwall 13.5kWh home battery. Potential electricity savings for Sydney (NSW) & Brisbane (QLD). Increased year on year savings at 3% inflation. Morning and night peak consumption modelling. Average consumption of 25kWh per day. Home of 4 to 5 people. Any performance, savings or payback estimate mentioned by CSR Bradford Energy are estimate only, actual payback may vary due to a wide range of external factors outside of CSR's control.
